

# Volunteer Opportunities

Each year, our 500 volunteers provide approximately 80,000 hours of service supporting the Health System's mission, vision and values. The diversity of services and projects allows volunteers the opportunity to select work that best suits their interests and schedules. We invite you to explore our many opportunities. Thank you for your interest!

- **Entrance Desk Volunteers**  
Volunteers who staff the entrance desks provide visitors with patient room numbers and locations of various departments and escort patients to their destinations.
- **Central Supply Rounds**  
Make rounds on nursing units throughout the hospital picking up equipment.
- ◆ **Clerical Projects/Department Assistants**  
For those volunteers who enjoy helping “behind the scenes” with light office duties such as answering phones, filing, copying, and running errands.
- ◆ **Day Hospital Receptionist**  
With shifts beginning as early as 5:30 a.m., volunteers register and escort patients, answer phones, and serve as a liaison between patients, families, and staff.
- ◆ **Discharge Transporters**  
These volunteers transport patients by wheelchairs from their rooms to their cars after discharge and run errands for the nursing units.
- ◆ **Emergency Department**  
Volunteers serve as a liaison between families, patients, and medical staff. They provide regular non-medical updates, round on patients and families, and assist staff as needed.
- ◆ **Golf Cart “Caddies”**  
These volunteers enjoy transporting supplies from the main hospital to an offsite department just across the street. Volunteer must be able to drive a Golf Cart.... They tell us it's fun!
- ◆ **Greeter/Wayfinder**  
These are first impression volunteers who assist the entrance desks volunteers with greeting and escorting customers.
- ◆ **Musicians**  
Professional pianists provide music therapy for patients and play the grand piano which is located in the main lobby of the hospital.
- **Patient Visitation**  
Volunteers visit with lonely patients and provide assistance to nursing staff.
- ◆ **Pet Visitation**  
A visit from a doggie volunteer can lift the spirits of our sick and lonely patients and promote healing. Our employees love the visits as much as the patients. Contact us about the guidelines for participating in this program.
- ◆ **Surgery Waiting Room**  
Families and friends wait in this area while the patients are in surgery. Volunteers register families, provide non-medical updates, serve as a liaison between the family and medical staff, and provide refreshments.
